

28.3.2007

Finnish Car Recycling Ltd strengthens its operations
ARTO SILVENNOINEN APPOINTED TO DEVELOPMENT MANAGER

The Association of Automobile Importers in Finland has appointed M.Sc. (Eng.) **Arto Silvennoinen** to development manager starting from 17.4.2007. Silvennoinen's assignments include the development and coordination of car recycling.

Arto Silvennoinen is an expert in recycling and is specialized in car recycling regarding both technical and administrative issues. Silvennoinen knows well the operation of Finnish Car Recycling Ltd, as he has managed the operations of the company as a consultant for several years. For example, he has audited the take-back points of Finnish Car Recycling Ltd and participated in the planning and implementation of the "Value from recycling" -campaign.

Arto Silvennoinen changes to the Association of Automobile Importers in Finland from Ramboll Finland Ltd where he acted as a leading consultant. Silvennoinen was transferred to Ramboll Finland after it acquired Paavo Ristola Consulting Engineers Ltd in the year 2006. Silvennoinen worked at Paavo Ristola Consulting Engineers Ltd as an office and programme manager for six years.
